Crawlspace

LED STRING LIGHT

Increased visibility provides a safer working environment, as lighting is always an issue during crawl space work. With our string of virtually indestructible, weatherproof LED lights for indoor or outdoor use, you have a solution! Save time during installation with no need to drag lights and drop cables all over the crawl space. Each light includes a carabiner to make installation simple. You can leave it as a permanent installation to light the way for others or use it to brighten other areas such as attics, patios, camping, construction sites, etc.

These five LED lights produce 5000 total lumens, use just 55 watts total and have an LED life of 40,000 hours. Lights are spaced 10' apart on a 50' cord. Each light has an extra wide 120°

light spread with a super bright beam. Connect up to 10 sets of lights for a maximum 500 ft.-long light chain.

to 10 sets of lights for a maximum 500 ft.-long light chain. The light color is 4000k (Cool White) which is midway between Warm White and Daylight.

They are safe and cool to the touch and come with a 3-year limited warranty.
